

JOMAR JADE BALLEBAS

Pasil, Malitbog, Southern Leyte | ballebasjomarjade@gmail.com | 0956-506-8421

SUMMARY

Fresh graduate with a Bachelor of Science in Information Technology majoring in Programming, equipped with hands-on experience as a Web Developer Intern. Skilled in PHP, Laravel, MySQL, JavaScript, jQuery, and version control using Git/GitHub. Successfully developed a patient record management system for a rural health unit and a scholarship management information system and to be integrated into a university enrollment system. Eager to contribute to a dynamic team as a Web Developer and build scalable, user-focused web applications.

WORK EXPERIENCE

Web Developer Intern Jan 13, 2025 - May 06, 2025

University Information Systems and Analytics (Southern Leyte State University - Sogod Campus)

- Built dynamic and responsive front-end pages using HTML, CSS, JavaScript, jQuery, and AJAX.
- Designed and implemented a Scholarship Management Information System integrated with the university's enrollment system.
- Created PDF generation features using TCPDF for official documents such as certificates and student profiles.
- Collaborated with senior developers and fellow interns using Git and GitHub for version control and code reviews.

Capstone Project Programmer Aug 2024 - Dec 2024

Patient Record Management System with Analytics and GIS for Rural Health Unit - <https://prms.ccsit.info/>
Southern Leyte State University - Sogod Campus

- Designed and developed the user management module for the admin panel, enabling secure account creation, role assignment, and access control.
- Implemented login authentication with Google SSO for secure and convenient user access.
- Developed responsive and user-friendly interfaces for both admin and health staff using HTML, CSS, JavaScript, and Laravel Blade.
- Integrated data analytics features to visualize patient trends and health statistics for improved decision-making.
- Collaborated with the project team to integrate a Geographical Information System (GIS) for mapping patient locations and identifying health service gaps.
